

Backup and Recovery for Azure AD

What would happen if your Azure AD was compromised in a ransomware attack? Unfortunately, most businesses learn the hard way that not having a backup of Azure AD introduces risk. Without the ability to recover immediately, a compromised Azure AD causes serious damage.

Your Dedicated Third-Party Backup for Azure Active Directory

With the best coverage on the market, Keepit keeps your business rolling with instant access to your Azure Active Directory infrastructure and metadata — always. Our blockchain-based encryption technology ensures your cloud data is immutable to malicious ransomware attacks or accidental deletion.

With four backup copies stored in two separate vendor-neutral locations, your data is always available. Thanks to unrivaled ease-of-use, unlimited storage and archiving, and fast restore features that minimize downtime, Keepit is the simplest, most cost-effective way to protect your Azure AD.

#1 Coverage for Your Data

Keepit Backup and Recovery for Azure Active Directory is a simple, yet powerful application to protect you Azure Active Directory infrastructure from accidental deletions and ransomware. The coverage includes:

Users

In-Place Restore	Restore In Bulk	Restore Subobjects	Download	Sharable Links
------------------	-----------------	--------------------	----------	----------------

Why Companies Globally Trust Us

Customers around the world have made Keepit their preferred choice to protect their data against data loss and downtime. Here's why they trust Keepit to keep their Azure AD data safe:

Data Availability

Exclusively dedicated to securing SaaS data, Keepit's proprietary cloud is designed to ensure data availability — always.

Cost Effective

With Keepit, everything is included in the seat price, keeping things simple. Scale your data protection at no extra cost.

Simplicity First

A universal service that covers all your SaaS data protection needs. Loved by admins for its ease of use. Simplicity that will save you time.

Instant Recovery

Restore your data in seconds with our unique search and restore features, based on ultra-fast indexing and reindexing algorithms.

Always Secure

Described by analysts as industry-leading, our platform is purpose-built from the ground up for ultimate security.

Keepit is the world's only independent cloud dedicated to SaaS data protection

You only need Keepit to cover all your key SaaS applications, including Microsoft 365, Salesforce, Azure Active Directory, Dynamics 365 and Google Workspace. Keepit is trusted by thousands of companies worldwide to protect and manage their cloud data. Leading analysts agree Keepit is the fastest and most secure enterprise-class SaaS back-up and recovery service.
