

Professional AI Solutions

Elevate meetings with Vurbo.ai's advanced transcription, translation, and summarization, paired with IPEVO's high-quality audio equipment, enhancing audio quality and transcription accuracy.

Benefits for Your Work

Powerful Software and Hardware

For meeting minutes, translations, and clear audio recording.

One-Stop Solution

Assists with clerical work and ensures high-quality audio.

Solutions

One-to-One Wireless Microphone

Optimal for speaker audio capture.

One-to-Two Wireless Microphone

Ideal for interviews and discussions.

Long-Distance Audio Capture

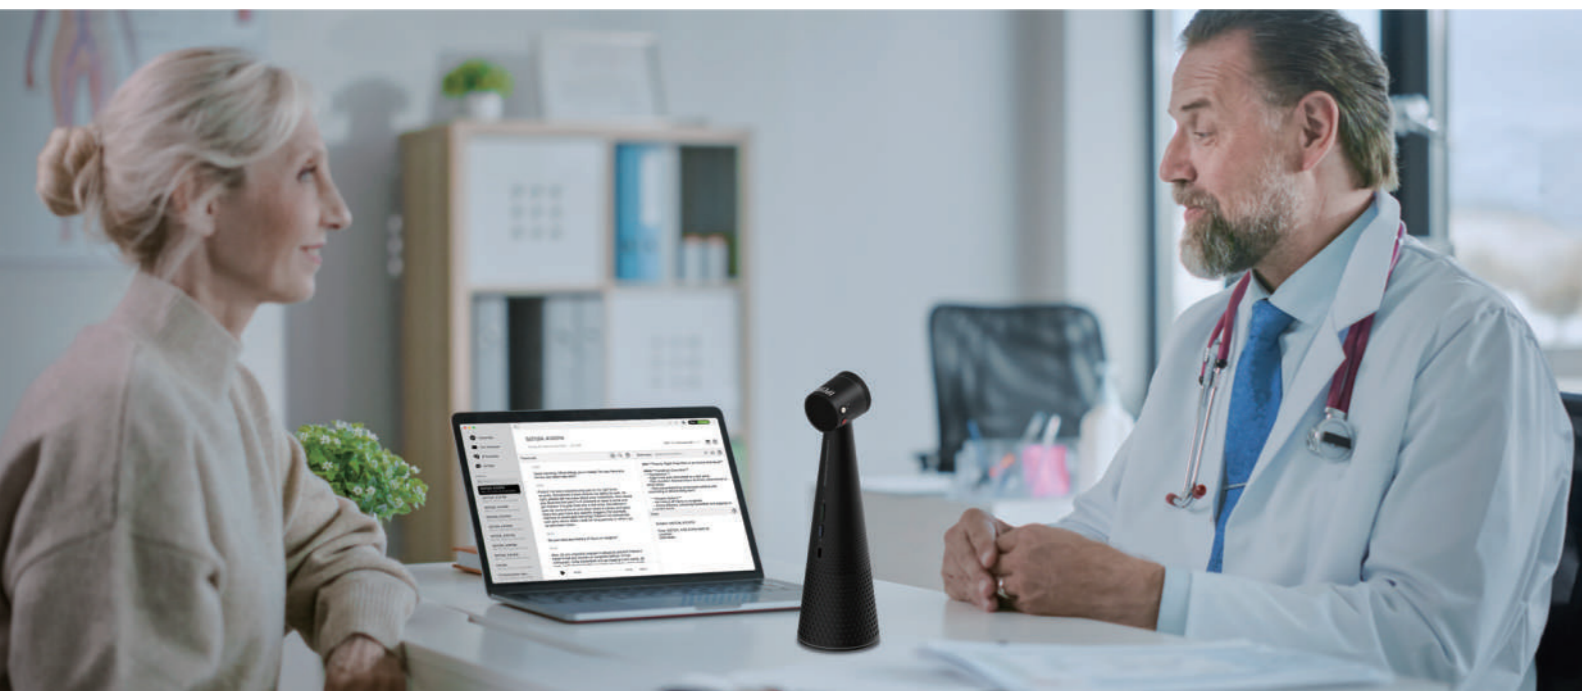

Perfect for seminars and lectures.

VOCAL / VC-A10

Advanced audio capture for meetings in any environment.

TOTEM 180/360

Use with VOCAL for integrated video and audio solutions.

Wireless Environment with Document Camera Upgrade

Enhance teaching efficiency and engagement with the latest document cameras and OCR software. The ULTRA 13MP series boasts superior image quality and offers both wired and wireless connectivity options, allowing for more versatile teaching environments.

VZ-X ULTRA 13MP

Offers high-quality imaging, supports wireless teaching, and allows teachers to move freely and interact closely with students.

VZ-R ULTRA 13MP

Enhances imaging quality and captures details on documents up to A3/Tabloid.

SnapCapture OCR Software

Combining powerful and user-friendly scanning software with a document camera creates an efficient scanning and digitization station.

About IPEVO

IPEVO is a leading brand specializing in intelligent communication technology. We design innovative conferencing devices and document cameras with intuitive user experience. Our products and software applications enable business professionals and educators to co-create, work, teach, and collaborate remotely, seamlessly and efficiently.

Empowering Enterprises and Education with On-Premises AI

Vurbo.engine | Edge AI PC

- On-Premises Deployment
- Industry Specific LLM
- Customizable AI Framework
- Efficient Large Language Model
- Secure Data Privacy
- Real-time, On-prem Computing

Enterprise AI

Tailored Artificial Intelligence Solutions for Businesses

Customize AI edge computing to develop tailored private models for your enterprise. Leverage AI for voice transcription, summarization, and intelligent search to optimize workflow efficiency. Our dedicated private AI models deliver accurate outputs while safeguarding the privacy and security of your database and documents.

Benefits for Your Business

Vurbo.engine (Edge AI PC) for Efficient Model Training

Facilitates faster processing and analysis to optimize the development of customized solutions.

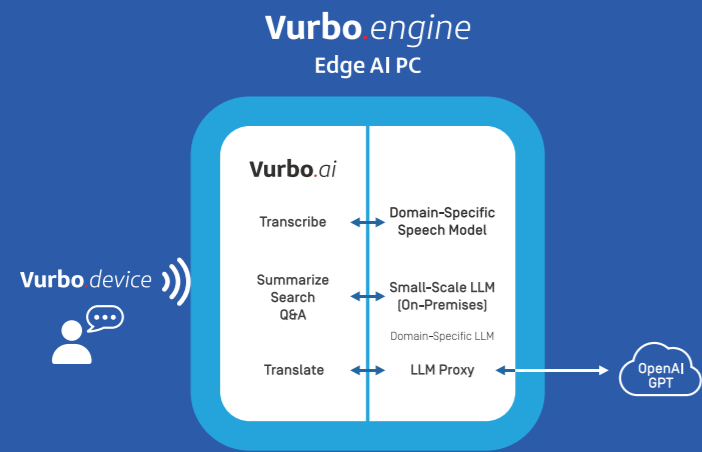

Domain-Specific Knowledge for Precision

Enhances the accuracy and relevance of outputs, enabling more effective decision-making.

Flexible Deployment

Supports on-premises and hybrid(on-premises + cloud) deployments for seamless integration.

Application Scenarios

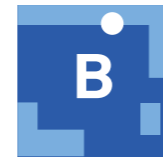

On-Premises Deployment

Requires high data security, privacy, and advanced proprietary terminology recognition.

Hybrid Deployment (On-Premises + Cloud Services)

Requires proprietary terminology recognition, data security, and cloud services for translation and search.

Education AI

AI-Driven Interactive Classrooms of the Future

IPEVO's Education AI solution offers an affordable, interactive whiteboard device for classrooms. The integrated Touch PC combines hardware and software, featuring voice activation and RAG technology for a seamless teaching experience. It enhances productivity, inspires creativity, and improves interaction with students.

Benefits for Your Teaching

Efficient Retrieval and Answers

Quickly retrieves relevant data and provides real-time answers to student queries.

Tailored Learning and Multilingualism

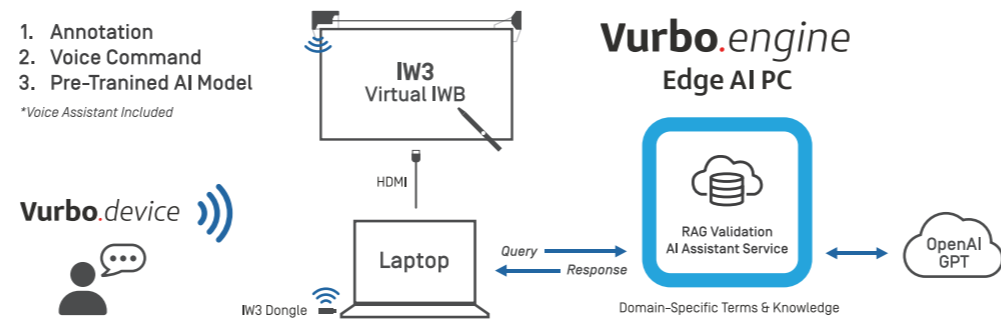

Personalized teaching materials and multilingual support for international education.

Enhanced Engagement

Facilitates the creation of interactive teaching content for deeper comprehension.

Application Scenarios

1. Annotation
 2. Voice Command
 3. Pre-Trained AI Model
- *Voice Assistant Included

AI Meeting Room in a Box

Deploy a comprehensive all-in-one conference room solution within 15 minutes. Upgrade any space into one that's ready for hybrid meetings and live conference broadcasting without the need for construction or wiring.

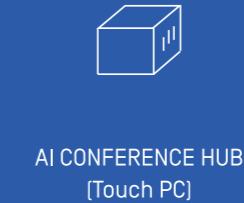

Benefits for Your Meeting

Transform Any Space into a Hybrid Meeting Room with Ease

Quick Setup: Easy and Fast Deployment.

Versatile Compatibility: Supports Zoom, Teams, OBS, vMix.

Solution Package

AI CONFERENCE HUB (Touch PC)

Vurbo.ai Meeting Transcription Software

TOTEM 180/360 Panoramic Camera

VOCAL HUB Wireless Conference Audio System

On-Premises Speaker System Solution
