

# IPEVO

Innovating Communications

## Transform Education and Collaboration with IPEVO

Unleash the power of education with IPEVO's integrated suite. Our integrated suite of video, audio, and Vurbo.ai technology revolutionizes classrooms, enhances learning experiences, and streamlines administrative tasks. Explore our approach and transform your education journey.

# School Board Meeting Solution: Seamless, Portable, and Efficient

- **Quick and Easy Setup:** No pre-installation required, enabling rapid deployment without the need for system integrators.
- **Portability:** Easily portable for meetings across various school districts.
- **Seamless Integration:** Compatible with all major platforms like Zoom, Teams, OBS systems and more.
- **Advanced Features:** Powered by Vurbo.ai software for transcription, translation, and minutes.

# Hybrid Learning

To facilitate both remote and in-person learning effectively, consider incorporating the following strategies leveraging IPEVO devices:

## Audio Capturing & Enhancement

### Teaching Material Digitization with Vurbo.ai

Integrating VOCAL AI Bluetooth Speakerphone and Vurbo.ai transcription software for speech-to-text digitization of teaching materials and teacher self-evaluations.

- **Deploying VOCAL Speakers**

Use one or up to six VOCAL AI Bluetooth speakerphones to cover large areas, ensuring every word spoken by teachers are captured accurately.

- **Seamless Integration**

Integrate with Vurbo.ai software for precise AI transcription, automatic summarization, and translation of the captured speech.

# Video Capturing

## Capturing Interaction

For wide-ranging educational training or school instructional needs, the TOTEM series enables panoramic or wide-angle video instruction, freeing educators from spatial constraints, and offers recording for demonstrating teacher training.

UHD PTZ Camera

## Enhancing Cross-School Remote Teaching

IPEVO's solutions offer a remedy for the issue of teacher shortages. By integrating document cameras and the TOTEM series and VOCAL with a portable, simple setup, district-wide remote classes achieve clear video quality, providing an immersive learning experience.

VZ-X Wireless Document Camera

VZ-R Dual Mode Document Camera

## Record and Live Broadcasting

Compatible with various third-party video conferencing software including Zoom, Teams, OBS, etc. No additional software installation is needed; select IPEVO USB devices as the video and audio source in the video conferencing software.

# In-Person Learning

In today's education landscape, wireless devices and large interactive panels are increasingly prevalent. IPEVO's document cameras and TOTEM series, compatible with PC and Mac, are essential tools that enhance interaction and enrich learning experiences for teachers and students.

## Wireless Integration

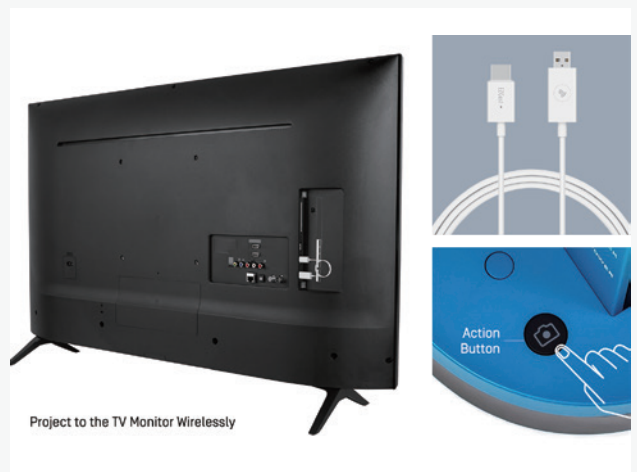

### Display with iPads or PCs

Add VZ-X to the wireless network and execute IPEVO Visualizer on the iPad to display captured materials or documents. Wirelessly mirror the image to a big screen.

### Display without Computers

Cast captured video to a big screen without using a computer.

## IFP Extend Tools

Visualize physical textbook or objects and display them on a big screen. IPEVO cameras output standard USB UVC format, compatible with and can be used with IFP's built-in camera playback software, or IPEVO's Visualizer software can be installed on IFP for image playback.

VZ-R Dual Mode Document Camera

## Recording and Documentation

Besides reserving for remote meetings/training, they can also be used as tools for recording, tracking teaching outcomes, and teacher assessment.

Using AI, it records and transcribes classroom content, making editing and recording easier, and transforming it into instructional material.

# Remote Teaching

Remote teaching remains in demand across districts, schools, and countries, as well as for remote school board meetings. IPEVO Document Cameras offer convenient solutions for both communication and teaching.

## Why IPEVO?

### Universal Compatibility

All IPEVO products seamlessly integrate with popular video conferencing software.

### Rapid Deployment

From classrooms to boardrooms, upgrade any space into a hybrid conferencing environment effortlessly.

### Flexibility

Set up in just 10 minutes, without the need for extensive installation or construction.
